To whom it may concern,

I respectfully request that claim 96788 listed in the Objection be removed from the proposed Schedule so as to allow for sufficient time for my Customer Entitlement reconciliation without further delaying the court process.

I am in the process of providing additional details to the Debtors' teams so they can identify and trace details in their books and records of the underlying assets, relevant account(s) and corresponding Customer Entitlement

Appreciative of the time and efforts from the Debtors teams and how complex the exercise of reviewing and analysing deficient books and records is, I understand engaging with claimants individually when required to uncover their records generates time delays that should not affect other claimants nor the court due process.

As filed, claim 96788 could not include sufficient details for its reconciliation to be progressed hence appears as mere placeholder to some extent. It can be removed from the Objection schedule to allow for sufficient time for proper identification, KYC and reconciliation to be completed.

Sincerely

**P**
